16505 Carmine Red	16506 Violet	16507 Blue	16508 Turquoise
16509 Light Green	16510 Green	16511 Brown	16512 Anthracite

Colors are represented within the limitations of printing processes.

- Products of GLASS COLOR are magnificently combined with Porcelain+GlassColor glitter (same burning-in temperature and -time).

- Important: Use only heat-resistant material. Place the painted object in the cold oven. When the temperature of 160°C is reached, let the coloring burn in for 30 minutes. Cool off inside the oven. The glass is then suitable for the dishwasher!
